

### 3. Packaging units

- 3.1 The ordered quantity per packaging unit has to be taken into consideration. We do not accept smaller/higher quantities than our packaging units.
- 3.2 The cardboard boxes should be filled approx. 90 %, otherwise they can burst and mix up with other boxes. Therefore please choose suitable cardboard boxes. Do not pack the parts in plastic bags before you pack them in the cardboard box, because they will get rusty until they will arrive Germany. Recommended box sizes see enclosure.
- 3.3 The material of the cardboard boxes have to be so good that the goods are protected during the transport to Ferdinand Gross and later to the customer. Problems arise when the cardboard boxes are not completely filled. ...
- 3.4 That the cardboard boxes do not open during the logistics process, it is necessary that you stick them with heat adhesive or transparent adhesive tape .
- 3.5 The labelling of the cardboard boxes have to be easy legible. The following information have to be on the label:
- article name- DIN/ISO
  - grade of hardness
  - size
  - quantity
  - surface treatment
  - batch / lot-no. if available
  - Supplier Number

The label on the right side will show you how it should look like.  
We can send you a disk with the Ferdinand-Gross-sign.

### 4. Delivery Bill

- 4.1 If you do several sizes on one palette you have to make a separate delivery bill per palette or a special marking on the general delivery bill.
- 4.2 Please make separate delivery papers for separate packed commission and warehouse goods.
- 4.3 The delivery bill has to be the following data's:
- Ferdinand Gross order number
  - day of ordering
  - number of the supplier
  - Ferdinand Gross article number
- 4.4. The delivery bill for the complete shipment must be easily visible fixed on the outside of the palette, for example in a transport adhesive bag. Or you can fix the complete delivery bill on the top side of a very special marked palette.

### 5. Sanctions

If you deliver against our instructions additional costs will arise and we keep the right to debit them to you.

#### 6. Order on call

##### Example

- ↳ production time 3 months
- ↳ order date 01.01.2003
- ↳ parts are finished 01.04.03
- ↳ that means last call 01.04.2004

Following example should clarify the procedure:

- a.) We order 4 x 10.000 pcs. – first position for “sofort” (next possible shipment) and 3 positions for 31.12.2005 (Abruf)
- b.) You deliver 10.000 pcs. as soon as possible and you keep another 10.000 pcs. at your stock.
- c.) As soon as we call off (abrufen) the 10.000 pcs. from your stock, you start to produce further 10.000 pcs. for your stock.

The procedure continues until the contract is finished.

We give you a guarantee for the produced products. We will call off the entire quantity within 12 months. (Exceptionally within 18 months) starting from the first delivery.
